PERSONAL STYLE
 Inspired by worldwide colour trends emerging at international design shows, GROHE now offers 10 colour finishes, presented for the first time in the complete Essence line. And as always, everything at GROHE comes with a seal of exceptional quality. All our products’ components, ease of operation and perfect looks have to withstand numerous endurance tests – the toughest in the industry. That’s also true for our colours. Expect the same durability and quality over their lifetime as for our chrome products.

**WARM SUNSET**

_A PLEASANT TOUCH OF LUXURY._

A pleasant touch of luxury for individualists. The Warm Sunset finishes accentuate original, atmospheric bathroom designs and add an air of brilliance. Match with dark stone, marble or concrete.

**COOL SUNRISE**

_AN EXQUISITE STATEMENT._

Make a statement with Cool Sunrise. In high gloss it evokes sophistication and classic luxury. In brushed it brings a modern yet vintage charm to life. Coordinate with dark, light or white interiors.

**HARD GRAPHITE**

_AN URBAN DYNAMIC STYLE._

Contrast or camouflage: A perfect partner for elegant pairings with pure white or blending with tone-on-tone environments. It works well with mid-tone environments such as concrete or light wood.

**NICKEL**

_THE NATURAL, HARMONIC STYLE._

The natural feel. Use our Nickel finishes where high quality combines with organic elements to deliver clear-headed purity and natural warmth. Harmonises with stone, light concrete or marble.

**SUPERSTEEL**

_A SENSE FOR LUXURY._

Cosmopolitan design. Achieve an overall deluxe look with this matte finish that not only matches with steel but is the ideal companion for light marble, concrete and mid-tone woods.
GROHE PVD
UNRIVALED HARD AND SCRATCH RESISTANT.

Made-to-last surfaces ranging from precious matt to shiny like a diamond.
GROHE taps are made to look as beautiful decades on as they did the day you first fell in love with them. The special recipe to success lies in our long-lasting surface quality.
GROHE uses state-of-the-art technology to deliver exceptional quality finishes. The physical vapour deposition (PVD) process ensures that the surface composition is three-times harder, delivering glistening gold or sophisticated stainless-steel finishes.
As well as being harder, the surface is also ten times more scratch resistant, so it can be cherished for a lifetime.
SUPER LOOKS.
SUPER RESISTANCE

GROHE’s SuperSteel surface more than fits this bill. In fact, the innovative PVD coating is ten times more scratch-resistant than chromium. The silk-matt stainless steel surface not only looks unbelievably good, but also demonstrates its resistance in daily use. Fingerprints on the surface? Not here. And nowhere on the surface for microbes and bacteria to lurk either, which greatly reduces the microbial count. So the surface of the fitting stays hygienically clean, day after day.
FREESTANDING SHOWER
FREEDOM IN BATHROOM DESIGN

GROHE’s freestanding Essence shower brings new thinking to the bathroom. Walls and panels are no longer required, opening up new opportunities and blurring the line between bathroom and outside.

The shower features the renowned GROHE SilkMove cartridge technology and is equipped with the Euphoria stick handshower and Silverflex shower hose – perfectly matching the minimalistic Essence design. Developed for indoor use, the freestanding shower comes in three finishes: chrome, supersteel and brushed nickel.
