ABOUT LIXIL

LIXIL is the most comprehensive and connected global company in the housing and building industry, delivering human-centric innovation that enhances people’s living spaces – we call this Living Technology.

Delivering core strengths in water, housing, building and kitchen technologies, our brand portfolio businesses including LIXIL, GROHE, American Standard Brands and Permasteelisa are leaders in the industries and regions in which they operate, bringing better living solutions to the world today and for future generations.
THE SOURCE OF LIVING

Water is used for drinking and cooking all over the world. We use running water in the kitchen around 100 times every day! We take it so much for granted that we often don’t think of water when we hear the word kitchen. We forget what has to work hardest in the kitchen: the kitchen tap. An appliance that is used this frequently must naturally be durable and function perfectly every day. In addition, since kitchens are increasingly becoming living spaces, it also has to look great. That is why ergonomics, functionality, aesthetics and finishes are so important in GROHE kitchen taps. In short this is why we refer to GROHE in the kitchen as The Source of Living.
THE SOURCE OF ENJOYMENT

GROHE delivers top-quality drinking water directly from the tap – from refreshingly cold to boiling hot. For filtered, chilled and carbonated water, choose GROHE Blue® Chilled & Sparkling. If you like it hot, install our GROHE Red® boiling water taps. They look great, offer amazing convenience, and GROHE Blue® cuts out the need to buy bottled water, making a valuable contribution to the environment. GROHE helps you enjoy water any way you want.

THE SOURCE OF TECHNOLOGY

High-quality materials, outstanding design and innovative technologies ensure that your GROHE faucet will last a lifetime. Our tap levers feature GROHE SilkMove® technology, making them extremely easy and precise to operate. Many different designs and spout heights give you huge scope when choosing your kitchen furniture and sink; whilst pre-window models, integrated dishwasher shut-off valves and low-pressure variants ensure there is a model to meet all your installation requirements.

THE SOURCE OF STYLE

Our full range of modern ‘cosmopolitan’, timeless ‘contemporary’, and simply ‘authentic’ style taps offers you exactly the right tap to match your needs and your taste. You will want your kitchen tap to stay looking as good as the day it was installed. GROHE StarLight® chrome resists scratches and ensures a lifelong shiny finish, and if you like the look of stainless steel, you’ll love our SuperSteel finish.

THE SOURCE OF CONVENIENCE

Many of our models are available with pull-out mousseurs and sprays, a convenient and time-saving feature, either for rinsing salads, vegetables or for washing greasy pans. You will be amazed at the adaptability and flexibility of our range of professional sprays – to help make your life in the kitchen as easy as possible.
Master of Technology, measures the water temperature of GROHE Red®, which delivers upto 100 °C hot water in an instant. The GROHE CoolTouch® technology ensures the spout is never too hot to touch despite the very high temperature of the water.
MASTERS OF TECHNOLOGY

GROHE’s people have been regarded by their peers in the industry as Masters of Technology, because of their innovations, outstanding design and award-winning fittings.

By a combination of their advanced craftsmanship and their cutting-edge approach to effective teamwork and processes, our Masters of Technology take the lead in developing, designing and manufacturing our outstanding product range, all the while testing and fine-tuning each piece to ensure continued customer satisfaction.

The result: Timeless design. And quality that lasts a lifetime. Again and again GROHE products surprise users with unique features that provide ‘Pure Freude an Wasser’. When you use a GROHE product you can feel the difference. Time after time.

Take, for example, GROHE Red® that delivers instantly 99°C hot water and the spout remains cool – and safe – at all times with GROHE Cooltouch® technology. Another kitchen highlight is the GROHE Blue® water system for freshly filtered and chilled table water straight from the tap and with different degrees of carbonation. Say goodbye to the hassle and inconvenience of bottled water, while the excellent taste of GROHE Blue® water promotes health and increases performance. GROHE kitchen taps feature exciting functions according to your daily needs and the design of the tap fits perfectly into your kitchen. Water is the source of living, fresh free-flowing and essential – sourced from our GROHE kitchen taps, it brings joy and pleasure to the everyday.
HANDS ON FEATURES

Accommodating your every wish and desire, GROHE water systems and kitchen taps include user-centric features and ingenious details that make all the difference. More choice, more comfort and more flexibility; which is why our products are such a pleasure to use.

- **Pull-Out Mousseur**
  Increases the operating radius of your tap.

- **Pull-Out Dual Spray**
  Increases operating radius of the tap and offers easy switching between mousseur and the spray.

- **Pull-Out Mousseur Spray**
  Increases operating radius of the tap and offers different sprays.

- **RealSteel**
  Made of solid stainless steel, a robust material with antibacterial properties.

- **EasyExchange**
  The aerator is easy to install and de-install using just a coin.

- **Lead+Nickel Free**
  No contact of water with lead and nickel due to isolated inner water ways.

- **EasyTouch**
  Just touch the tap at any point with your wrist, elbow or just your fingertip to turn the faucet ON and OFF.

- **FootControl**
  Just touch the bottom side of the cabinet with a gentle tap of your foot to turn the tap ON and OFF.

- **Professional Spray**
  Features a 360° spring arm and easy switching between the spray and mousseur.
ChildrenLock
Integrated safety mechanism prevents unintentional opening by young children.

ComfortHeight
Height of the spout allows easy filling of large pots.

EasyDock
Guaranteed easy retraction and smooth docking for your pull-out spray head, every time.

SpeedClean
Remove limescale with a single wipe.

PreWindow
To open the window, just lift up the tap and lay it flat on the surface.

SwivelStop
Limited turn angle prevents flooding.

EasyDock
Guaranteed easy retraction and smooth docking for your pull-out spray head, every time.

Forward Rotating Lever
Forward rotating lever prevents the lever hitting the backsplash.

Enhanced Water
Superior-quality water directly from the kitchen tap – saving time, money and the environment.

ChildLock
Integrated safety mechanism prevents unintentional opening by young children.

Titanium Inside
All boilers in our GROHE Red® collection are made from titanium.

GROHE PERFORMANCE LINES

The source of functionality in your kitchen. Our performance lines offer practical features, installation options and unrivalled design choices, perfect for every home.

REST EASY WITH OUR 5 YEAR GUARANTEE.

You can always rely on the performance and quality of our innovative water systems. That is why we provide a full 5 year guarantee – far in excess of the 2 year legal minimum. For more details on our guarantee, please see the service area at grohe.co.uk or speak with your GROHE representative.
Water is the source of life, fresh, free-flowing and essential. Our range of water systems offers a tailored drinking experience of purity and convenience that will turn water into a source of health and enjoyment in your home.

Kettle-hot or filtered, chilled still or sparkling, our water systems deliver ready-to-use water conveniently from your kitchen tap.
Imagine drinking water fresh from a mountain spring – life-affirming, thirst-quenching, and absolutely pure. Now imagine the same health-giving, untainted water flowing directly from your own kitchen tap. The GROHE Blue® water system makes this a reality in your own home. It transforms ordinary tap water and filters it, leaving a taste as fresh and pure as nature intended.

Whatever your idea of perfect water refreshment – filtered, chilled, sparkling or all three – GROHE Blue® brings it to you straight from the tap.

FIND OUT THE WAYS IN WHICH GROHE BLUE® BRINGS BENEFITS TO YOUR HOME:

**TASTE**
GROHE’s filters remove impurities to give water a pure, fresh taste that even beats bottled water

**HEALTH & WELLNESS**
removing even small particles but leaving behind precious minerals, GROHE Blue® makes it easy to embrace the health-giving properties of water

**CONVENIENCE**
no more carrying heavy bottled water home

**SUSTAINABILITY**
kinder to the environment, with less waste on packaging and processing compared to bottled water
PURITY
YOU CAN TASTE

It all comes down to taste. A representative survey which asked consumers to taste GROHE Blue® water alongside three leading still mineral waters found that GROHE Blue® water tastes better! 73% of consumers assessed the taste of GROHE Blue® water as “fresh”, while only 63% of those surveyed found the mineral waters to have a “fresh” taste.

GROHE Blue® water doesn’t just taste great by itself: it also gives coffee and tea a much more refined and intensive taste.

Clear taste test winner over 3 leading mineral waters
GROHE Blue® tastes fresher!

To ensure that GROHE Blue® water does not come into contact with unfiltered water or with metal parts after filtering, the high-quality fitting features two separate waterways – one for the ordinary mains water and one for the purified GROHE Blue® drinking water. This prevents from becoming tainted, preserving the great filtered taste.
HEALTHIER LIVING
FROM THE SOURCE

Water is the most precious and fascinating element on earth, the source of life itself, with proven benefits for our health, wellbeing and even appearance. The Deutsche Gesellschaft für Ernährung* recommends that we drink at least two litres of water each day.

Many of us opt to buy bottled water, either because it tastes better than tap or because we believe it is healthier than tap water. However scientific analysis has proved that, due to strict regulations and controls on our drinking water supplies, tap water is at least as good as bottled.

Another reason people spend a small fortune on bottled water is the preference for sparkling water. Now GROHE Blue® delivers all the benefits of bottled water, straight from the tap. It provides a great taste, plus the option of sparkling water too. This makes GROHE Blue® the ultimate solution, not just for good health but for great taste as well.

* German Nutrition Society
Think for a moment about the energy and hassle it takes to keep a supply of bottled water on hand at home. You have to buy it from the supermarket, then lug it from the car to your house. Once there you have to find space to store it out of sight. Then when you’ve finished it you have to return or recycle the plastic bottles, before starting the whole process again. By installing a GROHE Blue® system in your kitchen you can say goodbye to the hassle and inconvenience of bottled water with no compromises on taste or health. Just turn the tap and enjoy an unrivalled refreshment experience. What could be easier than that?
REDUCING WASTE, RESPECTING NATURE

Water needn't cost the earth
It takes an astonishing 7 litres of water to produce a single litre of bottled mineral water. Not to mention the energy used, CO2 emissions created and the 1.5 million tons of plastic packaging used by the industry each year.

At GROHE we are always working to secure the future of water, our most precious natural resource. This is the driving force behind the development of such products as GROHE Blue®, which help people manage their water and energy consumption with ease.

Sustainable solutions
GROHE Blue® offers a smart alternative which cuts the waste involved in processing bottled water and reduces CO2 emissions by an impressive 83%, according to a study by the University of Goettingen. GROHE Blue® also just needs the 1 litre you drink instead of 7 litres for bottled water, reducing waste by 85%. This makes the GROHE Blue® water system a sustainable alternative to bottled water.
BWT FILTER TECHNOLOGY

Technology that lets you taste the difference
For our GROHE Blue® system we have worked with BWT, Europe’s leading filtered water professionals, to ensure that our system produces an unparalleled refreshing drinking experience.

GROHE Blue® filters use a five-step filtration process to remove even the smallest particles from tap water, while leaving behind all the important minerals that benefit your health.

FIVE-STEP FILTRATION EXPLAINED

1. PRE-FILTRATION
   Filtres out coarse particles of sand and dirt.

2. ACTIVATED CARBON PRE-FILTER (= TASTE IMPROVEMENT)
   Removes chlorine, certain organic compounds including insecticides and pesticides, for a cleaner, fresher taste.

3. HIGH-PERFORMANCE ION EXCHANGER
   Removes limescale and metal substances.

4. ACTIVATED CARBON FILTRATION
   A second filtering process for a maximum taste experience. Bypass water is filtered and purified while keeping essential minerals.

5. FINE FILTRATION
   Captures even the finest remaining particles.

BYPASS SETTING
A small amount of limescale in the water is important for a pleasant taste and mineral balance. The bypass setting allows a small amount of water to be filtered without removing limescale in the ion exchanger.
GROHE BLUE® FILTER – 
DRINKING WATER, 
REFINED

Our standard high performance S-Size filter comes with every GROHE Blue® starter set, and replacement filters are available in three sizes – S, M and L. Every GROHE Blue® filter cartridge uses a five-step technology to remove all substances from tap water that impair its taste. Carbon filtration removes chlorine while a high-performance ion exchanger reduces limescale and heavy metals, leaving you with untainted, odour-free drinking water with a pure, fresh taste.

GROHE BLUE® ACTIVATED 
CARBON FILTER – YOUR 
SOLUTION FOR SOFT 
WATER AREAS

Ideal for soft water areas, the activated carbon filter improves the taste by removing chlorine and pesticides but does not filter out carbonate hardness.

GROHE BLUE® 
MAGNESIUM+ FILTER – 
FOR GREAT TASTE AND 
HEALTH BENEFITS

Enjoy additional health benefits by choosing the Magnesium+ filter model. It uses our five-step filtration process and it also adds magnesium to the water. Something of a tea and coffee connoisseur? Then this is the option for you, with the added magnesium delivering the best-tasting tea and coffee possible.
Do you like your chilled drinking water still or sparkling? Somewhere in between? With GROHE Blue® the choice is all yours. First the water is filtered to remove impurities. Then it is chilled to create that mountain-fresh taste. When you turn on the tap a simple twist of the handle lets you choose whether still, medium sparkling or sparkling water flows into your glass.

Fresh water tailored to your exact taste, flowing straight from the tap – it’s as easy as 1, 2, 3. While the right-hand lever on a GROHE Blue® tap mixes hot and cold water as normal, a handle on the left serves the chilled and filtered water and controls how sparkling your drinking water is, from perfectly still to bursting with bubbles.

An LED indicator in the lever changes colour to let you see your chosen carbonation level at a glance – still, medium sparkling or sparkling – as well as telling you when the filter capacity has fallen below 10% and will soon need to be changed. The water temperature can also be set to your personal taste, individually regulated to between 6 °C and 10 °C.

GROHE BLUE® CHILLED & SPARKLING
STILL WATER

MEDIUM SPARKLING WATER

SPARKLING WATER
As well as letting you select your ideal taste in drinking water, GROHE Blue® technology comes in a variety of design styles and options, making it a perfect fit, whatever your style of kitchen. Select one of four desirable tap styles – the classic GROHE Blue® with C- or U-shaped spout, the GROHE Blue® K7 or the GROHE Blue® Minta.
For those who don’t wish to replace their current tap there’s GROHE Blue® Mono. With a single pillar tap which sits alongside your existing tap, you can add chilled and sparkling water. It’s pure and simple.

Colour options:
- 001/002 | StarLight Chrome
- DC1/DC2 | SuperSteel

GROHE Blue® Chilled & Sparkling Starter Kit comprises: Single-lever mixer with filter function, water filter complete with filter head, cooler and carbonator box

GROHE Blue® K7 Chilled & Sparkling Starter Kit comprises: Single-lever mixer with side spray and filter function, water filter complete with filter head, cooler and carbonator box

GROHE Blue® Mono Chilled & Sparkling Starter Kit comprises: Single-lever mixer with filter function, water filter complete with filter head, cooler and carbonator box
Pure water enjoyment. For people who prefer still water only, GROHE Blue® Pure is the ultimate solution. Better tasting than tap water, better for the environment than bottled water, and much more convenient for you, GROHE Blue® Pure offers drinking water of ultimate purity.
If pure, filtered, unchilled water is your preference then GROHE Blue® Pure is your solution. While the right-hand lever on GROHE Blue® Pure tap mixes hot and cold water as normal, a handle on the left serves the filtered water. Simply select your tap style from four options - a C- or U-shaped spout, the GROHE Blue® K7 with optional pull-out spray or the GROHE Blue® Minta, or add an elegant GROHE Blue® Mono pillar tap to sit alongside your existing tap – the choice is all yours.
**GROHE Blue® Pure**

Starter Kit comprises: Single-lever mixer with filter function, and water filter complete with filter head.

**GROHE Blue® Minta new Pure**

Starter Kit comprises: Single-lever mixer with filter function, and water filter complete with filter head.

The GROHE Blue® Magnesium® filter is a replacement filter for GROHE Blue®, designed for mineralization of the water with magnesium and premium taste.

The GROHE Blue® S-Size Filter, M-Size Filter, and L-Size Filter are designed for different water flow rates, ensuring the best water quality for each water projection.

The GROHE Blue® Activated Carbon filter helps to improve the taste and smell of the water by removing impurities.

The GROHE Blue® Glass carafe is perfect for serving water, providing an elegant and stylish presentation.

The GROHE Blue® cleaning cartridge is essential for maintaining the filter's longevity and ensuring optimal water quality for all GROHE Blue® filters.
STREAMLINE YOUR KITCHEN

Never wait for the kettle to boil again. The innovative GROHE Red® system means you can fill anything, from a mug to a large pot, with kettle-hot water in an instant – and all direct from your kitchen tap. GROHE Red® enables you to still have your standard kitchen mixer, but a second lever provides kettle-hot water on tap.

THE BENEFITS ARE CRYSTAL CLEAR

CLEAN, FRESH TASTE
filtered water heated to 99°C degrees for an exceptional taste experience

CLEAR YOUR WORKTOP
no need for the clutter of a kettle. GROHE Red® fulfils all your water needs from a single tap

NO MORE WAITING
kettle-hot water is always available at the turn of the lever, so waiting for the kettle or pot to boil is a thing of the past

LESS WASTE
you only take the exact amount of hot water you need, so you save on water and energy consumption*

* GROHE Red Duo 8l:
Energy efficiency class water heater: B
GROHE RED®

A SINGLE, SIMPLE SOLUTION

TASTE THE DIFFERENCE
Use GROHE Red® in combination with a GROHE Blue® filter and get fresh just-filtered water served kettle-hot. Enjoy your tea and coffee with a great clean taste. The boiler where the water is heated is made of titanium, which does not impart any metallic taste to the water. It is also highly resistant to corrosion and limescale build-up, meaning a consistently great taste over the lifetime of the tap.

DECLUTTER YOUR KITCHEN
What busy kitchen doesn’t need more worktop space? GROHE Red® means you can clear the clutter of your kettle from the worktop and get both hot and cold mixed water plus kettle-hot water, all from the same tap. The system’s compact boiler is designed to fit discreetly below the sink, leaving you more counter space and a cleaner, clearer-looking kitchen.
SAVE PRECIOUS TIME

Never wait for a pot of boiling water or a much-needed cup of tea again. We all lead busy lives, and time spent waiting for water to boil all adds to the time spent on chores rather than relaxing. Whether it’s cooking pasta, blanching vegetables or preparing a baby’s bottle, GROHE Red® cuts out the waiting time with kettle-hot water ready for you, the instant that you want it.

SAVE WATER, SAVE ENERGY

Think for a moment about how often you boil and reboil the kettle. How often do you actually use all the water? When using GROHE Red® you only take the hot water you need, saving precious water and time. In combination with the large GROHE Red® boiler*, which can replace a warm water outlet in the kitchen, the system saves even more water. The large GROHE Red® boiler delivers the heated water for both kettle-hot water and also warm water for the sink mixer, instantly. No more wasted water while you wait for it to reach optimum temperature.

* GROHE Red Duo B: Energy efficiency class water heater: B
How many times a day do you fill and boil the kettle? From the first cup of tea in the morning to a late night pasta dinner, we boil up water countless times, often heating far more than we need. With GROHE Red® you have water heated to 99°C ready when you want it. It’s convenient and saves water and time.
CHILDLOCK

Safety is paramount in a family kitchen. That's why GROHE Red® taps are designed with a child lock that makes scalding practically impossible: for the boiling water to flow, you must first pull and then turn the left handle. This child-safe feature has been independently tested and certified.

TECHNOLOGY
YOU CAN TRUST

GROHE COOLTOUCH®
GROHE CoolTouch® technology offers you total peace of mind. It insulates the tap so well that you can touch the spout without any risk of scalding, making it far preferable to a kettle in homes with young children.

GROHE RED® TITANIUM BOILER
All boilers in our GROHE Red® collection are made from titanium. Unlike stainless steel and copper, two metals traditionally used for boilers, titanium is highly resistant to corrosion and limescale build-up – ensuring perfect performance over a lifetime. It also guarantees that your water is free of any metallic taste.
GROHE RED®
DUO

Kettle-hot water – optionally filtered – plus mixed hot and cold water. GROHE Red® Duo means you can have it all covered in just one tap, replacing your standard kitchen tap. When combined with the larger Red® boiler, it is even ideal for kitchens without a hot water supply. It instantly delivers warm water for the kitchen mixer without waiting for water to heat up. Available in two spout shapes, it is also the perfect match with a GROHE Blue® Mono water system.

A SMART SOLUTION FOR YOUR OFFICE KITCHEN

A busy office runs on... tea, coffee and lots of fresh water. From water-cooler moments to brainstormed ideas powered by a pot of hot coffee, drinking water is at the heart of the day-to-day life of any company. Now you can find a smarter solution that saves your company time, energy and money, while offering great taste and unbelievable convenience, with GROHE’s water systems.

*Total consumption of 33,000 litres water (in a company with 30 employees; 1 litre/person/day; over a period of 5 years).
Source: CO2 Carbon footprint study from Goettingen university, Germany 2013/2014
ENJOY FRESH THINKING WITH GROHE BLUE®

With a GROHE Blue® water system your company can enjoy the benefits of filtered chilled and sparkling water on tap:

BEST VALUE FOR MONEY
GROHE Blue® filters, chills and even carbonates tap water, so no more expensive and disruptive deliveries of expensive bottled water.

MOST ENVIRONMENTALLY SUSTAINABLE
With no plastic bottles and lower CO2 emissions* than for normal bottled water GROHE Blue® will reduce your office’s carbon footprint.

The University of Goettingen made a detailed analysis of the influence of drinking water production on our environment. With only 17.96 gr per litre, GROHE Blue® saves up to 62.4% CO2 emissions compared to gallon water and 83.4% compared to bottled water.

FREE UP PRECIOUS SPACE
GROHE Blue® means there is no more need to set aside vast amounts of valuable office space for storing bottled water.

47.8 gr. CO2/l 108.5 gr. CO2/l

*CO2 emissions:
-83.4%
-62.4%
SAVE TIME AND MONEY IN YOUR OFFICE KITCHEN
GROHE Red® everyone in the company can enjoy kettle-hot filtered water direct from the tap.

NO MORE WAITING
Don’t fear the tea round! When using GROHE Red® you can say goodbye to waiting for the kettle to boil. Instead enjoy pure water heated to 99°C, always available at the moment you want it.

A CLEANER, CLEARER KITCHEN
There is no need for a kettle your kitchen will be less cluttered and easier to keep clean and tidy.

THE MONEY-SAVING OPTION
As you only heat the exact amount of water that you need, running a GROHE Red® tap is cheaper than running a wasteful kettle.

Build a powerful team with GROHE Blue® and GROHE Red® combined
Combine both the GROHE Blue® and Red® systems for double the benefits. You can opt either for a GROHE Blue® Duo tap in combination with a GROHE Red® Mono, or choose the GROHE Red® Duo and add a GROHE Blue® Mono. The choice is yours, the benefits will be felt throughout the company.

GROHE EASY TOUCH / FOOT CONTROL
Ideal for busy kitchens where there's always something going on, GROHE EasyTouch and FootControl are hygienic and convenient, and both come without any compromise on style. GROHE’s innovative touch technologies you can spend less time cleaning and more time cooking, baking, kneading, finger-painting...living.
The kitchen is the heart of your life at home – and let’s face it, sometimes life gets messy. With GROHE’s innovative Touch taps sticky fingers won’t slow you down and cross-contamination is a thing of the past. Hidden GROHE technology lets you start and stop the flow of water with a single tap of your arm, wrist or the back of your hand, anywhere on the spout. No more greasy fingerprints or struggling to turn a lever with your elbow.
GROHE
ZEDRA TOUCH

Put the sweeping, sensual power of water at the centre of your kitchen with the Zedra Touch. Zedra’s distinctive fluted swivel spout and beautifully tactile lever combine ergonomic design with visual flair. The addition of GROHE’s EasyTouch technology enables you to also control the water flow with just one touch. Choose your Touch function in the standard-version with an integrated mixing unit or upgrade with an under-sink Grohtherm Micro thermostat for perfectly controlled warm water and no danger of scalding.

GROHE MINTA TOUCH

Modern and minimal, the sensual curves and arcs of GROHE’s Minta range will never go out of fashion, and sit perfectly in any contemporary kitchen. Now you can add the ultimate in cleanliness and convenience with the EasyTouch model. Letting you turn the water flow on and off with a touch of your arm, Minta Touch puts you in control. Choose your Touch function in the standard-version with an integrated mixing unit or upgrade with an under-sink Grohtherm Micro thermostat for perfectly controlled warm water and no danger of scalding.
Minta Touch has been approved and recommended for use by disabled people and the elderly. It has been tested and rated “good” by the Institute for Gerontotechnik for Barrier Free Building, due to its one-touch operating technology and ergonomic design.

GROHE FOOTCONTROL

For kitchens where time is of the essence and convenience is a must, why not go hands-free? GROHE’s new FootControl taps can be turned on and off with a gentle tap of your foot on the base unit, leaving your hands free and your tap spotless at all times. Three of our most popular taps now come with this innovative FootControl technology, or you can retro-fit the feature to any GROHE pull-out kitchen tap. To say goodbye to germs, mess and hassle, simply tap your feet!
LIBERATE YOUR HANDS
TAP YOUR FEET
Unlock the professional potential of your kitchen with the K7 FootControl tap. Enjoy the high-performance of the K7’s professional spray feature and extractable hose combined with the convenience of foot activation technology. The tap’s crisp architectural styling makes it a design feature in itself, but the exceptional pro-level features mean it’s more than a match for any task. For busy kitchens where efficiency is a must, the K7 FootControl tap puts you in total control – and leaves your hands free for other tasks.

GROHE ZEDRA

Contemporary elegance meets total convenience with Zedra. The flared spout echoes the natural flow of water, and also contains a pull-down spray to make cleaning easier. The ergonomically-designed lever handle invites you to control your water flow with precision, while GROHE engineering guarantees smooth functionality that will last a lifetime.
GROHE ZEDRA

GROHE’s Zedra features a dual-control button with locking feature, which lets you switch effortlessly between spray modes and a SpeedClean nozzle makes removing limescale a breeze. Choose between a high-gloss GROHE StarLight® chrome finish or the anti-bacterial properties of RealSteel for a tap that is as durable as it is beautiful.

GROHE MINTA

Every family likes variety from the kitchen and that is exactly what Minta delivers. All Minta taps share one unmistakeable feature, which is the minimalist cylindrical shape. GROHE’s most popular kitchen collection is now filled with additional innovative features like the new extractable dual-spray. The collection is available in GROHE StarLight® chrome and in highly resistant SuperSteel finish.
A stylish, minimal kitchen doesn’t mean compromising on performance. The first thing you’ll notice about GROHE’s Minta tap is its sleek, clean silhouette, perfect for a contemporary kitchen. What you’ll enjoy day after day is its fantastic flexibility, with a pull-out spray head with dual spray control it makes cleaning, rinsing and prepping easy, letting you get the most out of your kitchen.
Our most popular tap combines a distinctively minimal silhouette with huge flexibility and innovative features. From a model with a swivel spout to one with a pull-out mousseur or the new retractable dual-spray head, plus two choices of durable finish, GROHE Minta puts the choice in your hands.

Discover a minimal style that’s full of warmth with GROHE’s new Essence tap. The slim architectural shape is enhanced with organic design elements ideal for a contemporary kitchen, inviting touch and interaction for the sensual chef.
DELICATE DESIGN, POWERFUL FEATURES

A distinctive, delicate body conceals advanced technology in the new Essence tap. The cylindrical body is super-slim, thanks to a new small cartridge, offering pure elegance without compromise. A solid metal spray head guarantees life-long performance, and you can switch easily between two spray patterns with a toggle function that puts flexibility to the fore.
Choose between two models, one with swivel spout and one with a solid metal pull-out spray, which offers easy switching between mousseur and spray. Available in a choice of two great-looking and durable finishes and you’ll see that great design doesn’t have to mean compromise on functionality.

Colour options:
000 I StarLight Chrome  |  DC0 I SuperSteel
GROHE EUROCUBE

Make a statement with GROHE’s Cubist masterpiece. The Eurocube’s strong lines and solid, architectural shape is perfect for modern kitchens where design is at the forefront. From the lever’s cut-out detailing to the new professional-grade features, this is a tap for those who are both style conscious and serious about their cooking.
GROHE EUROCUBE

Eurocube is available in two versions. Choose between a swivel spout model and the new semi-professional mixer with pull-out dual spray. Mounted on a spring hose with 360° movement, the head switches easily between two spray options, giving ultimate flexibility and great high-spec performance.

GROHE PERFORMANCE LINES

THE SOURCE OF FUNCTIONALITY

Get the most out of your busy kitchen with GROHE’s Performance Lines. Created to offer a huge range of practical features to make any kitchen easier, safer and more enjoyable to use, you’ll bound to find the perfect solution. With a variety of modern designs, plus versatile height and installation options, GROHE Performance Lines offer great value and functionality that will enhance your life every day.
GROHE PERFORMANCE LINES
Simple, streamlined and modern – GROHE’s Europlus has a universal appeal. A sculpted body flows seamlessly into a smooth lever handle, tilted at a 7 degree angle for easy handling and optimal ergonomics. Choose from a low or medium-height spout model, and add a pull-out dual spray for even greater flexibility.

Create a kitchen that the whole family can take pleasure in with the new GROHE Eurosmart. Effortless control, unrivalled performance and temperature-safe operation combine in a sleek contemporary design.
Eurosmart has more features than ever before. The easy exchange mousseur lets you install or remove it to clean limescale with just a coin. Separate inner water ways guarantee that the water inside the tap never comes into contact with lead or nickel. You’ll also find that our optional variant with GROHE SilkMove® ES cartridge supplies cold water only when the lever is in the central position, which saves energy because water is not heated unnecessarily. Add to that an integrated temperature limiter that can be individually set to your desired maximum temperature and you’ll understand why Eurosmart puts unbeatable functionality in your hands.

**Lead and nickel free: separated inner water ways**
