GROHE is cooking up a storm in the kitchen. With designs to match all styles of interior decor, all installations and all budgets, our enticing portfolio of kitchen faucets will exceed your expectations.

Just as a great meal combines beautiful presentation, fresh ingredients and nutritional value, our faucets perfectly balance quality, technology and design. Using only the finest materials and the latest industry-leading technologies, GROHE kitchen faucets deliver years of reliable performance – day in, day out.

An appetizing mix of product features makes light work of daily tasks and will impress even the most reluctant home chefs. And a generous seasoning of practical features, such as pull-out sprays ensure all of your needs are covered.

Fusing award-winning design with innovative functionality, our Premium Lifestyle Collections appeal to passionate people who settle for nothing less than perfection. Our successful K7® kitchen faucet range is the choice of home chefs who want superb style and professional performance.

Now we can offer you Touch faucets in two distinctive designs - Minta™ Touch and the new Ladylux³ Café Touch. Our latest addition is GROHE Ladylux³ Café Touch. With its innovative Touch technology it instantly reacts to the slightest touch, meaning you can turn the water on and off by touching anywhere on the faucet with just the back of your hand, wrist or forearm. Ladylux³ Café Touch stays clean, when your hands are not.

GROHE Performance kitchen lines offer a wide choice of spout heights and product features, making them the ideal choice for family kitchens. Coordinating ranges of bathroom faucets and faucets are also available, to create a cohesive look throughout your home.

Our Kitchen Water Systems – GROHE Blue® Pure and GROHE Blue® Chilled & Sparkling – redefine what is possible in the kitchen. By delivering instant filtered, chilled and sparkling water straight from the faucet, they achieve a new level of function and convenience.

For functionality, innovative features and award-winning design, GROHE is the connoisseur’s choice, every time.
THE GROHE KITCHEN

Water is used for cooking the world over. We use running water in the kitchen up to 90 times each day. We take it so much for granted that we often don’t think of water when we hear the word ‘kitchen’. We think of well-filled refrigerators, aromas wafting from the oven and of tables set ready for dinner. But we forget what works hardest in the kitchen: the kitchen faucet. Something that is used this frequently must be durable – and since kitchens are increasingly becoming living spaces, it also has to look good. That’s why ergonomics, functionality, aesthetics and durable finishes are so important in GROHE kitchen faucets.

GROHE’s promise to you is that you will have it easy. For a lifetime. High-quality materials, outstanding design and innovative technologies ensure that your GROHE faucet will last a lifetime. Our faucet handles feature GROHE SilkMove® technology, making them extremely easy and precise to operate even with greasy hands. Intensive daily use leaves its traces. However, GROHE StarLight® chrome resists scratches and ensures a lifelong glossy finish. And if you like the look of stainless steel, you’ll love our SuperSteel® finish. For professional-level endurance choose RealSteel®, made from solid stainless steel. It’s not just with lifelong, perfect function that GROHE impresses in the kitchen, but also with form and finishes that please the senses.

True style shines through in daily life. From modern, Cosmopolitan single-handle mixers, through our timeless Contemporary lines to the Authentic style two-handle faucets, you will find exactly the right faucet to match your aesthetic ideals. Countless designs and spout heights give you huge scope when choosing your kitchen furniture and sink; there’s a model to meet all of your installation requirements.

Professional sprays for home use. Many of our models are available with pull-out sprays, a convenient and time-saving feature when rinsing salad leaves or washing greasy pans. You will be amazed at the adaptability and flexibility of our side and professional sprays.

Tap water takes its place at the table. GROHE serves you top-quality drinking water directly from the faucet. For filtered, chilled and carbonated water, choose GROHE Blue® Chilled & Sparkling. The GROHE Blue® Pure filter system is perfect for those who like still, non-chilled water.

One-touch convenience. Our new Touch faucets, Minta™ Touch and LadyLux® Café Touch, stay clean when your hands are not. Thanks to innovative Touch technology, you simply touch the faucet at any point with the back of your hand, wrist or forearm to turn the faucet ON and OFF.
Ongoing investment in research and development allows us to turn world-leading technologies for kitchens into reality. Our products have been created to last a lifetime, to be both easy and intuitive to operate and to make the use of water a pleasure.

**GROHE EcoJoy™**
Save precious resources and enjoy 100% water comfort.

**GROHE SilkMove®**
Smoothest handling for effortless precision and ultimate comfort for a lifetime.

**GROHE StarLight®**
Made to last surfaces ranging from precious matte to shiny like a diamond.

**RealSteel®**
Made of solid stainless steel – a robust material with anti-bacterial properties.

**Touch**
Just touch the faucet at any point with your wrist, elbow or just your fingertip to turn the faucet ON and OFF.

**Professional Spray**
Features a 360° spring arm and easy switching between regular water flow and high-performance spray.

**Two Function Toggle Spray**
Offers easy switching between regular water flow and high-performance spray.

**SpeedClean®**
Remove lime scale with a single wipe.

**Pull-Out Spray Head**
Increases the operating radius of your faucet.

**SideSpray**
The spray is mounted to the side of the faucet.

**ComfortHeight**
Height of the spout allows easy filling of large pots.

**SmoothTurn**
Extra smooth movement of all swivel spouts for easy handling.

**Forward Rotating Handle**
Forward rotating handle prevents the handle hitting the backsplash.

**Enhanced Water**
Superior-quality water direct from the kitchen faucet – saving time, money and the environment.

**1.75 GPM**
Kitchen faucets with 1.75 GPM capacity, an important reduction from the current standard of 2.2 GPM.

grohe.com/us  |  Kitchen Lines At A Glance  |  Page 9
Water is the most fascinating of all the elements on our planet. And water preferences can be as individual as taste in design. With GROHE Blue®, we can cater to your exact tastes. Do you like your water still, lightly sparkling or sparkling? Filtered directly from the faucet in your own kitchen? Your wish is our command.

GROHE Blue® combines outstanding design and innovative technology. A high-performance filter, cooler and carbonator deliver a pure taste experience – just as easily as using a standard kitchen faucet. The temperature and intensity of the water flow are regulated as usual using the faucet’s operating handle, while the left rotary knob with integrated LED display regulates the carbonation content of the filtered and chilled water.
Less environmental impact, more convenience
GROHE Blue® combines convenience and a healthy lifestyle in one environmentally-conscious package. Compared to the pollution and energy consumption caused by filling and transporting bottled mineral water, filtering tap water has a negligible environmental impact. GROHE Blue® saves resources and money, since 1.85 gallons of water are needed to put just one liter of bottled water on a supermarket shelf. Energy is also saved, as heavy bottles no longer need to be carried home and time and resources spent recycling them.

More taste
GROHE Blue® is fitted with filter technology that transforms ordinary tap water into pure fresh water without the aftertaste of heavy metals, limescale or chlorine. Convenient and eco-friendly, the filter cartridge purifies up to 158 gallons (600 liters) of water and is easy to replace. The faucet, which delivers either filtered or unfiltered water at the twist of a handle, is finished in GROHE StarLight® chrome and SuperSteel InfinityFinish™ for enduring good looks.

Convenience
The unique GROHE Blue® water systems deliver fresh, great-tasting filtered water from the convenience of your kitchen faucet whenever you want it – 24 hours a day, 7 days a week. An LED display on the faucet handle indicates when the water filter needs to be changed. The light flashes when the filter capacity is less than 10%. The filter lasts up to 12 months, has a capacity of up to 800gal (3000 liters) and can be adjusted to the hardness of the water.

The most precious resource in the safest hands
Water is not only the world’s most precious resource, but also the basis of all living things. GROHE and BWT, Europe’s leading water professionals, represent safety, hygiene and the highest quality standards. We have combined the expertise of our two companies to deliver a completely new water experience.

Tap water is now transformed into pure refreshment, using the innovative GROHE Blue® product range. GROHE Blue® filters the water with technology supplied by BWT and then depending on your GROHE Blue® water system cools it down to the ideal temperature for you to enjoy, providing still water with fine bubbles or effervescent, sparkling water straight from the faucet. BWT’s global innovation offers all water gourmets a refreshing tasting water, filtered by BWT’s unique, patented Mg²⁺ technology and enriched with magnesium. Just perfect for your everyday drinking indulgence.

FUNCTIONALITY

SEPARATED INNER WATER WAYS FOR 100 % PURENESS
To ensure that GROHE Blue® water does not come in contact with unfiltered water or with metal parts after filtering, the high-quality faucet features two separate lines – one for the ordinary tap water and one for the filtered GROHE Blue® drinking water. This prevents its taste from becoming tainted by regular tap water.

AVAILABLE IN DIFFERENT SIZES AND FUNCTIONS

40 404 001 GROHE Blue® filter 158.5 gallons (600 liters)
40 430 001 GROHE Blue® filter 396.25 gallons (1500 liters)
40 412 001 GROHE Blue® filter 792.5 gallons (3000 liters)
40 547 001 GROHE Blue® activated carbon filter for low water hardness
40 691 001 GROHE Blue® Magnesium+ filter for premium taste
Still, lightly sparkling or sparkling water? GROHE Blue® Chilled & Sparkling combines the modern look of a designer faucet with a high-performance filter, cooler and carbonator — and is as easy to use as an ordinary kitchen faucet. The right handle on the faucet is used to mix hot and cold tap water as usual. The left handle with integrated colored LED display regulates the carbonic acid content of the filtered and chilled water. The light flashes when the filter capacity is less than 10%.

The carbonator integrated in the built-in box adds especially fine bubbles of carbonation to the filtered and chilled water to produce lightly sparkling or sparkling water according to taste.

That is why we provide a full 5 year guarantee — far in excess of the 2 year legal minimum. For more details on our guarantee, please see the service area at www.grohe.com/us or speak with your GROHE representative.
GROHE Blue® Pure is the alternative for purified, still water straight from your kitchen faucet. Using the unique GROHE Blue® filter technology it turns ordinary tap water into fresh water, removing all of the substances that can impair its taste.

Finished in GROHE StarLight® chrome, the faucet has separate internal waterways – one for filtered water and the other for unfiltered water. GROHE Blue® filter cartridge can purify up to 158 gallons (600 liters) of water and can be replaced in just a few steps. It delivers a pure, refreshing water with no heavy metals, limescale or chlorine taste.

The GROHE Blue® Pure Starter Kit includes the faucet and an under-sink filter.

Innovative, easy-to-use and immensely practical, the advantages of GROHE’s Touch faucets are obvious. Inside GROHE’s elegant design is the latest technology to keep your kitchen clean all day long. It also reduces the burden of cleaning. You can cook up a storm and start and stop the flow of water as often as you like without leaving a trace on your faucet.

SAFE FOR CHILDREN
Safety is paramount, especially if you have little ones in the kitchen. That’s why the Touch function is available with cold water, so there is no risk of scalding. Prefer warm water too? Simply upgrade with our GrohTherm® Micro, a small thermostat installed under the sink that delivers the perfect temperature every time.

CLEAN AND HYGIENIC
Touch anywhere on the spout once with your wrist or forearm and cool water begins to flow from the faucet. Touch again and it stops. No handprints or greasy marks on the handle. No problem. The benefits of Touch in a busy kitchen are both practical and visual. Not only does light-touch control leave the faucet’s sparkling surface free of marks, but it also prevents cross-contamination caused by the transfer of germs and bacteria on the faucet handle.

FUSION OF DESIGN AND TECHNOLOGY
Innovative, easy-to-use and immensely practical, the advantages of GROHE’s Touch faucets are obvious. Inside GROHE’s elegant design is the latest technology to keep your kitchen clean all day long. It also reduces the burden of cleaning. You can cook up a storm and start and stop the flow of water as often as you like without leaving a trace on your faucet.

GROHE TOUCH FAUCETS
GROHE Touch faucets’ most innovative feature is something you can’t even see – but after just one touch you’ll fall in love. They offer you the ability to control the flow of water in your kitchen with nothing more than a touch from your wrist, forearm or the back of your hand, ideal for all busy cooks and their helpers.

Your faucet remains clean and bacteria free, no matter how many times you need to turn it on, or what you’re cooking at the time. And because the GROHE technology is completely concealed within the faucet, you can enjoy the same quality of uninterrupted design as on all our faucet ranges. Choose the Touch function in a cold water version or upgrade to include warm water controlled by a thermostat – either way GROHE Touch faucets are as safe as they are hassle-free.

Elegant, functional and ergonomic, Ladylux³ Café is the natural choice for today’s hard-working kitchen. And now, with the introduction of the Ladylux³ Café Touch, it offers even more ingenious technology.

Turn the water flow ON and OFF with just a touch on the spout with your wrist or forearm. No more greasy finger prints to clean and no fear of cross-contamination. The sleek design with a wide swivel spout remains unchanged, but the immaculate finish will stay cleaner, for longer. Choose your Touch function in a cold water version or upgrade with an under-sink GrohTherm® Micro thermostat for perfectly controlled warm water and no danger of scalding. Ladylux³ Café Touch comes with an ergonomic pull-down spray and a new dual-control button with locking feature, making switching between spray modes effortless.

Modern, timeless, beautiful. GROHE’s successful kitchen range Minta takes another step with our latest innovation.

The GROHE Minta™ Touch comes with a small but distinctive difference: Enhanced with Touch technology, it instantly reacts to the slightest touch, enabling you to turn it on and off without leaving a mark on its surface. There is no need to use the handle if your hands are dirty from cooking. Just tap the faucet with the wrist or forearm for perfect control every time.

This practical, hygienic technology is seamlessly integrated, meaning Minta™ retains the same gorgeous good looks as before. It’s available as a pull-down faucet with a curved C-shaped swivel spout or a pull-out faucet with a striking L-shaped swivel spout—the choice is in your hands.

Minta™ Touch has been approved and recommended for use by the elderly and those with physical disabilities. It has been tested and rated “good” by the Institute for Gerontotechnik for Barrier Free Building, due to its one-touch operating technology and ergonomic design.
GROHE PREMIUM LIFESTYLE COLLECTIONS

GROHE treats the kitchen with the respect it deserves. It’s so much more than just a workspace. It’s where you spend most of your time, it’s the heart and soul of your home and it’s often furnished to a correspondingly high standard. That’s why GROHE kitchen faucets deliver more than you expect. The workmanship, durability, innovation and design will satisfy more than just those with an appreciation for beauty. Home chefs who demand the same functionality as professionals sum up the characteristics of GROHE kitchen faucets in just one word: perfect.
With the GROHE K7®, we are redefining the focal point of your kitchen. Professional chefs know this better than anyone that a lot depends on skill and timing. That’s why the K7® has been developed in professional kitchens but geared to the needs of home chefs. Choose from the K7® Semi-Pro, the K7® Medium or the K7® dual pull-out. Design and functionality is in perfect harmony. With the K7® Semi-Pro Medium, you get the minimalist, high-end design idiom of the K7® Semi-Pro faucet but in a more compact size. The GROHE K7® is so functional that you can devote your full attention to what you are doing. The professional spray can be pulled out, turned and swivelled 360° and operated with one hand. Furthermore, you can switch back and forth between the spray and normal water flow without having to turn off the water.
A contemporary kitchen also makes the time we spend in it more enjoyable. It has to run like clockwork so that you can enjoy your time in the kitchen and still have time for other important tasks.

Two Function Toggle Spray
Easily switches between regular water flow and high-performance spray
Ladylux³ combines contemporary design and maximum functionality with proven reliability for rigorous use. The body flows elegantly into the wide swivel spout, offering distinctive design alongside everyday practicality, and there have never been so many function options to choose from.

The Ladylux³ has been completely redesigned with a cleaner spray design and a new dual control button with locking feature, making switching between spray modes effortless. Ladylux³ comes in three high-quality finishes: our high-gloss GROHE StarLight® chrome, the durable GROHE RealSteel® with anti-bacterial properties and SuperSteel InfinityFinish™. Whichever you choose, GROHE SilkMove® will ensure long-lasting smooth movement. GROHE SpeedClean® lets you remove limescale from the nozzle with a single wipe.

Modern architectural spaces command attention to detail. All elements must be considered to ensure that form and function achieve a harmonious balance. Available with a choice of two graphic spout shapes: U-shape and C-shape; Minta™ fuses the visual clarity of its slender swivel spout with the convenience of a pull-out rinsing spray. The elegant handle benefits from GROHE SilkMove® technology – for smooth operation and fingertip control, while GROHE StarLight® chrome guarantees a pristine finish for years to come.
Master chefs are used to having specialists at their disposal for all tasks. From the saucier to the pâtissier, they can call on a perfectly coordinated team. It’s actually no different in your kitchen.

It’s just that your team is much more compact: a single multi-tasker, the GROHE K4 kitchen faucet.

You can easily meet all the requirements in your kitchen with the K4 series. The gently curved shape with 360° swivel spout and a pull-out spray with SpeedClean® for easy removal of limescale from water nozzles guarantee reliable and convenient operation - ensuring more freedom in your daily kitchen tasks.

From a technical point of view, the GROHE K4 impresses with true robustness. GROHE SilkMove® guarantees smooth movement, even after years of hard use. And the GROHE StarLight® chrome finish will keep your faucets shining like new for years to come.
For those who surround themselves with the comfort of a simpler time, Bridgeford® completes a traditionally styled kitchen without sacrificing 21st century performance. Old-world detailing is perfected on the Bridgeford® bridge and bar faucets, while the two function toggle spray model brings modern functionality to a Victorian-styled kitchen. Bridgeford® kitchen faucets feature GROHE SilkMove® technology for effortless water control and are available in Grohe’s durable oil rubbed bronze finish, brushed nickel InfinityFinish™, and striking GROHE StarLight® chrome.
Do you like precision in the kitchen? Perfectly julienned vegetables, perfectly chilled wine, perfectly cooked meat? Then the clean lines of the GROHE Essence kitchen faucet will be exactly to your taste, with a cylindrical Cosmopolitan design that can stand up to scrutiny from even the most demanding master chef.

Essence kitchen faucets come with pull-out spray and in two hard-wearing finishes: the high-gloss GROHE StarLight® chrome and the stainless-steel look SuperSteel InfinityFinish™. The slim operating handle ensures easy and convenient water and temperature control thanks to GROHE SilkMove® technology. The GROHE EcoJoy™ technology delivers significant water savings – effortlessly.

Robust and packed with features, Alira® is the ideal choice for a hard-working kitchen. Made from RealSteel® – a professional grade, 18/10 stainless steel with inherent anti-bacterial properties – Alira® introduces this hygienic and durable finish to the domestic kitchen. For enhanced comfort and smooth handling of the faucet handle, the design also benefits from GROHE SilkMove® technology. A swivel spout and pull-out spray with a choice of spray or aerator functions ensures the perfect balance of stylish looks and perfect performance.
Ashford® is an ideal choice for those who prefer the comfort and coziness of traditional decor, but do not want to sacrifice convenience or functionality. Utilizing a topmounted single-handle style, Ashford’s spoon-type lever handle, handle cap, and spray head feature subtle details that define the traditional profile of the faucet. Performance features include a dual-spray diverter for fingertip control of both spray and regular flow water patterns, and GROHE SilkMove® technology for effortless water control. Ashford® is available in GROHE’s Brushed Nickel InfinityFinish™, or deep, lustrous GROHE StarLight® chrome.
GROHE EURODISC® COSMOPOLITAN

In developing Eurodisc® Cosmopolitan, we thought about people who are discerning individuals that recognize attention to detail. The high-gloss chrome finish elegantly emphasizes the tapered edges. You can expect the same perfection in the functionality of the faucet as in the form.

The Eurodisc® Cosmopolitan guarantees an attractive appearance and easy operation over the lifetime of the faucet, thanks to GROHE SilkMove® cartridges and GROHE StarLight® chrome finish.
Built to last, Eurostyle combines contemporary design with the latest technology and product features. A solid easy-to-use handle features GROHE SilkMove® technology to enhance its functionality, while the graceful lines of the arched spout will add a touch of elegance to your sink. Eurostyle is available with either a low or arched spout and benefits from our immaculate surface, while a GROHE EcoJoy™ model encourages water saving in the kitchen.

Europlus® balances a modern appearance with intelligent ergonomics. The sculptured lines of the body, enhanced by the GROHE StarLight® chrome finish, run seamlessly into the handle and radiate style. The handle is set at a slight angle of seven degrees to simplify handling and is extremely easy to operate thanks to GROHE SilkMove® technology. The medium spout height will accommodate the largest of pans, while the pull-out spray is an extra help for ambitious chefs. The low-pressure version means that GROHE Europlus® is compatible with all water supply systems.
Our Everyday lines are as varied and multifaceted as your kitchen. A large range of designs offers an exceptional array of features and functionality. High spouts, low spouts and faucets for installation in front of a window – your every need has been addressed. With every turn of the page, you’ll be surprised by the choice and impressed with the value.
Inspired by the simplicity of nature and the elegance of Classical forms, the new GROHE Parkfield® faucet. Offers users a tactile experience with a rounded handle and curved body, beautifully highlighted by both the GROHE StarLight® chrome and SuperSteel finish options. Ease of use is at the heart of Parkfield, with a pull-out spray with locking feature that lets you switch easily between two spray modes, perfect for rinsing the sink or washing vegetables. The faucet also incorporates GROHE’s SpeedClean® nozzles, which lets users remove limescale with a single swipe of the finger. Parkfield’s mix of comfort, flexibility and perfect control not only makes preparing food easy, but cleaning up afterwards is a breeze too.

With its sturdy physique, clean, confident design and dual pull-out, our Eurodisc® faucet brings a host of benefits to your kitchen. The fin shaped lever can be simply operated using just one finger, due to GROHE SilkMove® technology, bringing a lifetime of smooth handling. GROHEStarLight® guarantees a radiant chrome surface guaranteed to shine for years to come. Eurodisc® is also available in SuperSteel InfinityFinish™. Hardworking kitchens demand Eurodisc®, crafted from superior materials, engineered to perfection and designed to transcend time.
The Eurosmart® Cosmopolitan kitchen faucet combines the clean, geometric lines of modern architecture with durable technology. The swivel spout is convenient and easy to use – the ideal complement to any sink. Proven technologies such as GROHE SilkMove® for precise and smooth control and the high-gloss GROHE StarLight® chrome finish ensure the functionality and a flawless appearance, even after many years of use. The GROHE WaterCare version of the Eurosmart® Cosmopolitan kitchen faucet effortlessly saves water and energy.

Eurosmart® – practical, with solid design and high-quality internal components. GROHE SilkMove® technology makes one-handed control of the water flow rate and temperature child’s play, while the perfectly positioned spout makes it easy to fill pots. And for an immaculate shine, our GROHE StarLight® chrome ensures a lifelong sparkling appearance.
With its timeless design and classically arched spout Classic II is the perfect balance of quality, design and technology. First launched in the 1970s, the Classic II collection has been refined and updated several times – ensuring it is always current and on-trend. Benefiting from GROHE StarLight® technology, our premium chrome finish that resists tarnishing, Classic II features solid metal handles with Carbodur head parts, for a lifetime of smooth and precise handling.
